

DRAGON DICTATE FOR MAC 3

Control Your Digital World by Voice

Dragon® Dictate® for Mac® 3 speech recognition software lets you use your voice to do more on your Mac than you ever thought possible. Much more than just speech-to-text, Dragon Dictate lets you command your Mac by voice and capture your ideas at the speed of thought. Dragon Dictate just gets you, and you get more done – at home, school, work or wherever life takes you – with the power of your voice.

NEW in Dragon Dictate version 3:

- A 15% improvement to out-of-the-box accuracy when compared to version 2.x.
- An enhanced process for correcting individual words or phrases quickly through a single, easy to understand window.
- The ability to transcribe your recorded speech from a digital voice recorder, or your iPhone®, iPad® or iPod® touch.
- Alternative written forms of words or phrases, and Smart Format Rules to automatically detect and set formatting preferences.
- Support for wideband Bluetooth® for higher wireless accuracy.
- An interactive tutorial with fun exercises that demonstrate best practices for dictating, editing and formatting.

And more!

Dragon Dictate 3 includes everything users need to get started, including a high-quality headset. (Bluetooth wireless headset or digital voice recorder optional).

IGNITE PRODUCTIVITY WITH FAST, ACCURATE DICTATION

Say words and watch them appear on your computer screen—three times faster than typing—with up to 99% recognition accuracy right out of the box. Correcting or revising your dictated text is simple with a new, more powerful correction interface that lets you quickly edit words or phrases. Dragon Dictate adapts to your voice and the words you use to deliver better recognition results over time. You can personalize Dragon Dictate with your own custom vocabulary of acronyms, proper names and other unique phrases that you frequently use. Dragon Dictate can even adapt its format rules by detecting your format corrections—abbreviations, numbers, and more—so your dictated text looks the way you want it to every time. Review your work with Dragon Dictate's Text-to-Speech feature, which reads back editable text for easy proofing or multitasking.

IGNITE CONVENIENCE USING YOUR FAVORITE MAC APPLICATIONS

Dragon Dictate for Mac 3 goes beyond simple speech-to-text, and gives you control in more applications so that you can simply speak to do more than ever before. Use Dragon Dictate in Mac OS X® Lion or Mountain Lion with virtually any Mac application. Create and edit documents in Microsoft® Word, TextEdit, Notepad and Pages®, work with spreadsheets in Microsoft Excel® and Numbers®, create presentations in Microsoft PowerPoint® and Keynote®, manage email in Mail, search the Web or your Mac desktop, post to Facebook or Twitter, and more—all by voice. Dragon Dictate's new Express Editor lets you dictate into a text field in any application on the Mac for which it does not have Full Text Control. After you finish dictating, simply transfer the text from the Express Editor to the desired application quickly and easily by voice.

IGNITE PROFICIENCY & EASE OF USE RIGHT OUT OF THE BOX

Thanks to the new interactive tutorial's simulations, you can learn and practice good dictation, correction and editing habits so that you can create text efficiently within just a few minutes. Dragon Dictate's help menu is within reach with a simple voice command, so assistance is always available when you need it.

IGNITE FREEDOM AND COMFORT AT YOUR MAC

Say goodbye to repetitive stress injuries. Use your Mac in a comfortable, ergonomic way without being tied to your keyboard and mouse. Open applications or folders, select menu items, click or move the mouse, press keys, switch from one application to another or create custom voice commands to execute multiple steps by voice. Use your Apple® iPhone, iPad or iPod touch (4th gen) or your compatible Android™ device as a wireless microphone over Wi-Fi for optimal convenience. Wideband Bluetooth support delivers outstanding wireless performance with no training required.

IGNITE MOBILITY FOR PRODUCTIVITY ON THE GO

Dictate into a Nuance-approved digital voice recorder or use the free Dragon Recorder app to capture high-quality audio files using your iPhone, iPad or iPod touch (4th gen). Dragon Dictate will transcribe the recorded audio files when you connect to your Mac. These mobile recording capabilities enable you to capture thoughts from anywhere, at any time while they're still fresh in your mind to produce detailed, high-quality reports, papers, proposals, meeting minutes, and more.

System Requirements

- CPU: Intel-based Mac computer (2.2 GHz Intel Core2 Duo processor or greater recommended)
- Free hard disk space: 4GB
- Supported Operating Systems: OS X Lion (10.7) or OS X Mountain Lion (10.8)
