

Philips Pocket Memo
digital dictation recorder
with SpeechExec workflow
software

Push-button operation

POCKET MEMO

LFH9375

Get more done in less time

with digital dictation

Handy, powerful and efficient, you can easily operate the latest recording solution with push buttons. With the exchangeable memory card you have virtually unlimited recording capacity and the DSS format delivers excellent sound quality.

Superior audio quality

- High-quality built-in microphone for excellent sound quality
- High recording quality in DSS and MP3 format

Enhance your productivity

- SpeechExec workflow software for easy data management
- Professional editing via push-button operation
- Priority setting for getting urgent jobs processed first
- Automatic file download via USB for quick transcription

Designed for professionals

- Exchangeable memory card for unlimited recording
- Voice-activation function for hands-free recording
- Lightweight metal body for convenient working
- Direct charging via USB for economical recording

PHILIPS
sense and simplicity

Specifications

Connectivity

- Headphones: 3.5 mm
- Microphone: 3.5 mm
- Line-in
- USB: High-speed USB 2.0
- Memory card slot

Display

- Type: LCD
- Diagonal screen size: 44 mm/1.7 in.
- Backlight: white

Storage media

- Exchangeable memory card
- Memory card types: Secure Digital (SD), Secure Digital (SDHC)
- Mass storage class compliant

Audio recording

- Recording formats: Digital speech standard (DSS), MPEG1 layer 3 (MP3)
- Built-in microphone: mono
- Recording modes: XHQ (MP3/stereo), HQ (MP3/stereo), QP (DSS/mono), SP (DSS/mono)
- Bit rate: 13.5 kbps (SP), 27 kbps (QP), 64 kbps (HQ), 128 kbps (XHQ)
- Recording time (2 GB card): 349 hours (SP), 170 hours (QP), 72 hours (HQ), 36 hours (XHQ)
- Sample rate: 44.1 (XHQ), 32 kHz (HQ), 16 kHz (QP), 12 kHz (SP)

Sound

- Speaker type: built-in round dynamic speaker
- Speaker diameter: 30 mm
- Speaker output power: 200 mW
- Frequency response: 300–8,000 (XHQ), 300–8,000 (HQ), 300–7,000 (QP), 300–5,700 (SP) Hz

Convenience

- Professional editing functions
- Multiple language support: 5 languages (EN, FR, DE, ES, IT)
- 2 smart buttons
- Author ID setting
- Control via push buttons

- File lock
- One-thumb operation
- Priority setting
- Voice-activated recording
- Automatic software updates

Power

- Battery type: AAA/LR03 Alkaline, Philips AAA Ni-MH LFH9154
- Number of batteries: 2
- Rechargeable: yes, via USB
- Battery lifetime: up to 23 hours in SP recording mode
- Batteries included: rechargeable

System requirements

- Processor: Pentium IV 1GHz recommended
- RAM memory: 1 GB (2 GB recommended)
- Hard disk space: 100 MB for SpeechExec, 850 MB for Microsoft .NET 4
- Headphone output or speakers
- Operating system: Windows 7 (32/64-bit), Windows Vista (32/64-bit), Windows XP (32-bit)
- Free USB port
- DVD-ROM drive
- Graphics card: DirectX-compliant graphics card with hardware acceleration recommended
- Sound device: Windows-compatible sound device

Green specifications

- Compliant to 2002/95/EC (RoHS)
- Lead-free soldered product

Accessories

- SpeechExec Dictate software
- USB cable
- Secure Digital memory card
- Pouch
- 2 × AAA Ni-MH batteries
- Quick start guide

Design and finishing

- Colour(s): black aluminium
- Material: full metal body

Highlights

Exchangeable memory card

Virtually unlimited recording capacity thanks to an exchangeable memory card.

Voice-activation function

Voice-activated recording is a convenience feature for hands-free recording. When enabled, recording will start automatically when you start speaking. Recording stops automatically after you stop speaking and restarts automatically when you start speaking again.

Automatic download via USB

When plugged in, the Digital Pocket Memo automatically downloads your audio files directly onto the computer.

DSS and MP3 recording

The DSS format was developed for use in digital voice recorders, allowing a high compression ratio with little loss of quality. The DSS format also allows you to store additional information in the file header, which facilitates the organisation and the transcription of dictation files. The MP3 format is the common audio format for consumer audio storage, as well as a de facto standard encoding for the transfer and playback of music on digital audio players.

High-quality microphone

The high-quality microphone delivers increased recording sensitivity and excellent sound quality.

Lightweight metal body

The ergonomically shaped lightweight metal body is ideal for convenient working over longer periods of time.

Priority setting

With the included priority setting option, urgent recordings get processed first.

Professional editing functions

Easy and fast file editing (insert, overwrite, append) via convenient push-button operation.

SpeechExec workflow software

SpeechExec sends your recordings to your assistant for transcription and allows you to monitor the status of your work.

Direct charging via USB

Help protect the environment by simply recharging the batteries of your device using USB instead of buying new batteries.
